SEER Program Coding and Staging Manual	https://seer.cancer.gov/tools/codingmanuals/index.html	Check SEER SINO FIRST then Ask A SEER Registrar: https://seer.cancer.gov/registrars/contact.html

[^]SEER*RSA—Contains Site-Specific Schema Lists which include many coded data item lists such as Tumor Size—clinical, path and summary; Grade—clinical, path and post therapy; EOD 2018, Summary Stage 2018; and Site-Specific SSDIs. **Always check that you are using the latest version.**

*AJCC TNM 8th ed (3rd printing)—Errata continue even on the 3rd edition. As of 08/17/2018, there were 59 errata listed w/ about 54 of them being critical or important. Thus if you purchased a 3rd edition manual you will still have updating to do just a lot less than older versions.

#Solid Tumor Rules—IMPORTANT NOTE: “Cutaneous Melanoma” and “Other Sites” chapters WILL NOT BE UPDATED UNTIL 2021. Thus, existing 2007 MPH rules will still apply ONLY to these two site groups, including the use of Ambiguous Terminology in determining the most specific histology.

Reporting Guidelines

SEER Program Coding Manual

The 2018 manual is to be used for cases diagnosed January 1, 2018 and forward.

Hematopoietic Project

Data collection rules for hematopoietic and lymphoid neoplasms for 2010+.

2018 Solid Tumor Rules

2018 Solid Tumor coding rules replace the 2007 MP/H rules for cases diagnosed 2018 and forward.

Tools & Software

Glossary for Registrars

Use of terms, alternate names, abstractor notes, primary site and histology.

SEER*Rx - Drug Database

One-step lookup for coding oncology drug and regimen treatment categories.

SEER Abstracting Tool (SEER*Abs)

Used to collect and store data abstracted from medical records.

SEER Data Management System (SEER*DMS)

Supports all core cancer registry functions.

- Becoming a Cancer Registry Professional
- SEER Advanced Topics for Registry Professionals

SEER Online Training

SEER provides two training platforms for cancer registry professionals. Both tools are web-based, free, and self-paced.

SEER Training Website

- Educational modules
- Illustrations, tables, graphs
- Reference resource

SEER*Educate

- Hands-on exercises
- Answers with detailed rationales
- NCRA CE credits available for some sections

Becoming a Cancer Registry Professional

Frequently asked questions and resources on becoming a CTR.

Quality Improvement Education

Education and training programs are conducted at various SEER registries and in conjunction with the annual meetings of national professional organizations.
